

Nikhil Mitkari

AEM DEVELOPER

OBJECTIVE

To leverage my expertise in Adobe Experience Manager (AEM) development, along with strong skills in front-end and back-end development, cloud platform and content management system, to contribute to innovative and high-impact projects. Aiming to enhance user experience and optimize system performance in a dynamic and collaborative environment.

EXPERIENCE

SOFTWARE DEVELOPER I | FEDEX ACC

Aug 2023 – Present | Hyderabad

- Designed and implemented AEM components, templates, and workflows for the FedEx Developer Portal, improving content management efficiency by **25%**.
- Optimized system performance using AppDynamics and Splunk, reducing page load time by **15%**.
- Developed and integrated REST APIs, managing digital assets within AEM DAM, which increased asset retrieval speed by **30%**.
- Ensured security compliance through SonarQube, reducing vulnerabilities by **40%**.
- Streamlined deployment processes in collaboration with cross-functional teams using Jenkins and Git, enhancing project delivery time by **20%**.
- Migrated the AEM 6.4 to 6.5.21 from 6.5.12 SP

SOFTWARE ENGINEER | LTIMINDTREE

March 2021- July 2023 | Hyderabad

- Engineered and optimized AEM components and templates for the AVIS Budget Car Rental project, improving customer engagement by **20%** through enhanced UX.
- Integrated multiple REST APIs and utilized AWS services, leading to a **30%** improvement in system scalability and uptime.
- Effectively managed digital assets within AEM DAM, increasing content delivery speed by **25%**.
- Collaborated with UI/UX designers and backend teams to reduce development cycles by **15%** using Git, Bitbucket, and Jenkins for continuous integration and deployment.
- Implemented Fortify Scan, reducing security risks by **35%**, and ensured full compliance with industry standards.
